MACHINE OPERATOR (M/F/D)

Are you enthusiastic about technology and is precision your strength? Join our team as a machine operator (m/f/d) and ensure that our high-tech products are manufactured to perfection.

WHAT YOU CAN EXPECT:

- Operating, setting up, and monitoring CNC and cam-controlled automatic lathes in precision metal manufacturing
- Performing worker self-checks in accordance with the test plan to ensure dimensional and quality requirements are met
- Regularly lubricating and maintaining the automatic lathes according to the specified lubrication and maintenance plan
- Carrying out random checks during ongoing production and documenting the test results

WHAT YOU BRING TO THE TABLE:

- Completed training in a technical field (e.g., metalworking, machining, or mechanical engineering professions)
- Experience with CNC or automated production machines is an advantage
- A high degree of quality awareness and manual dexterity
- Reliability and willingness to work shifts
- Fluent written and spoken German

WHAT WE OFFER:

- Flexible working: We offer flexible working hours and 30 days of vacation
- Mobile to work: We offer the option of a free parking space.
- Joint leisure activities: Whether it's our summer party or our Christmas party, be part of it!

Have we sparked your interest? Then we look forward to receiving your complete application via our online portal. If you have any questions, please contact Alyssa Jelitto at 07032/2001-0.
